

Does your patient have acute kidney injury – KDIGO Stage 2 or 3?

- ✓ Aged 18 or over
- ✓ Metabolic acidosis (arterial blood gas values: pH <7.30, PaCO₂ <6.5 kPa & bicarbonate ≤20 mmol/L)
- ✗ Respiratory acidosis (acute/chronic)
- ✗ KRT immediately indicated and treating clinician(s) unwilling to defer
- ✗ Deemed unsuitable for KRT

If above criteria are met, patient may be eligible to participate.
