

T4P All-Site Meeting

28 February 2024
Summary

Sites and Recruitment

- 45 sites open and 322 patients randomised
 - Slightly quieter February with 21 patients as units seeing less admissions after winter
 - We are still accepting expressions of interest so do let us know if any other site in your Trust would like to take part in T4P!

Screening Log Update

- Screening data previously on an excel spreadsheet with identifiers removed and queries raised over email
 - Moving to MACRO with no collection of identifiers and validations to help with data entry
 - Queries via DCRs similar to 'missing pages' reports
 - Sites will need to enter any additional patients from 01 Feb onwards once you have been told your site is live on MACRO – all previous patients have been added for you
 - Enrolment log can still be used locally to help match patients using a 'screened patients tab'

Queries on new Screening Logs

- If a patient has platelets less than 50, but isn't have a procedure until a few days later should they have a new row on the screening log or amend the previous one?
 - They can be added onto the log when platelets are less than 50 with the outcome that 'no procedure planned' or 'screening ongoing' - this can be updated during their stay
 - Please note the log should be retrospectively completed following patient discharge where the final outcome can be recorded
- Should enrolled patients be on the screening log, or only be recorded on the enrolment excel log?
 - The enrolment log can be used locally in the same way it was to record who has been enrolled, with the addition of the new tab for screening number from MACRO
 - Enrolled patients will also be on the screening log with the outcome 'randomised'

Associate PI Scheme

- Positive feedback from sites who have used APIs and helps support staff out of hours
 - Quarterly API meetings provide an opportunity to make the most of the scheme

Coming up

- Next drop-in session will be W/C 25 March
- Please [register here](#) for our Clinical Webinar on **Thursday 07 March, 11.30-12.30**

Thank you for your continued hard work on the trial!
